HOW IT WORKS

ENTRIES

General Entry is \$50 for Full TARC Members and \$60 for TARC Event* and EA members.

Your General Entry fee entitles you to participate in three events: **Two dressage tests and a jumping round**, or **two jumping rounds and a dressage test**. It does not include the Rescue Relays, for which entries will be taken on the day.

If you only want to participate in showjumping, choose a Showjumping Entry (\$25 for Full TARC Members, \$30 for TARC Event/EA Members). This entry type entitles you to three jumping rounds only.

If you would like to compete in more dressage tests or jumping round (to a maximum of three dressage tests or six jumping rounds - three per horse), you may add them to your entry fee at \$20/\$15 per dressage test and \$12/\$10 per jumping round.

Entries will only be taken through Global Entries Online and will close on the 21st of June at 9:00PM. Late entries will not be accepted under any circumstances, but a reserve list will be taken. Reserves who are called up will incur a \$10 admin fee in addition to their entry fee.

REFUNDS

No refunds will be made after the closing date for entries. The club will refund entry fees when presented with a veterinary or medical certificate within 48 hours of the competition. The club will retain \$20 for admin costs.

PRIZES

Ribbons will be awarded to 5th place in all dressage tests and showjumping classes.

The Red Nose winner in each dressage test will receive a bag of feed/voucher donated by The Feed Shed Bungendore!

**(If you are not a member of TARC or the EA, we require you to join as a TARC Event Member. The fee is \$30/year - October to November - and ensures that our insurance covers you. We do not allow uninsured riders to compete.)*

HOW TO BRIBE YOUR DRESSAGE JUDGE

This is a **red nose** dressage competition. Ribbons will be awarded twice for each test - tests will be scored in the usual manner and ribbons will be awarded to 5th place. Ribbons will also be awarded for the Red Nose Riders to 5th place. There are also generous prizes for the red nose section!

Scoring for red nose riders works as follows:

- ★ Wear a red nose during the test and receive an extra 5% for your score. Have your horse wear a red nose and receive an extra 5% added to your score (horses may wear noses on saddle blankets/tails).
- ★ Judges will also be accepting bribes (donations to Sids and Kids) on the day if you are after further improvement to your final score. This will be added at judge's discretion after the final score is placed. Judges may award up to 10% more to your score for bribes.

SHOWJUMPING

HEIGHTS

1. Ground poles (to be scored on optimum time)
2. Cross rails (run under modified AM7/jump-off rules)
3. 45cm (Table C)
4. 60cm (Table C)
5. 75cm (Table C)
6. 90cm (Table C)

RESCUE RELAY

- A. Teams of 2. No obstacle higher than 45cm.
- B. Teams of 2. No obstacle higher than 75cm.

Entries for the Rescue Relay will be taken on the day at \$10/pair paid in correct change. All proceeds from the Rescue Relays will go to Sids and Kids.

For this event there are two riders on the course at once. The first rider starts their round and continues until either they have a fault, they finish the round or the judge rings the bell. When the first rider has a knock down the second rider takes over the round starting with the jump after the jump knocked down. When the first rider has a refusal the second rider takes over the course at the jump refused (if it was knocked down during the refusal they must wait until it is put up again). If the first rider completes the round with no faults and the bell has not rung the second rider takes over from jump No 1 and continues on - finish flags do not apply. Swapping of riders when faults occur continues the same as above until the bell rings to finish the round. If the second rider is the one to finish the first round (i.e. the first rider had a fault) they continue on from the last jump to the first jump again. When the judge rings the bell your round is finished and you should jump the next jump in order. The winning pair is the one which gets furthest along the course. If there are equal placings the time taken from when the bell goes to when the horse takes off for the next jump is used to divide them.
